

Aloha to All --

For the fiscal year 2022-2023, we have some major maintenance projects planned. The main entrance to St. Benedict Church has lots of potholes and the plan is to improve the entrance by widening the exit turn, then resurfacing the asphalt. Cost is \$43,000. Generous donors have give \$15,000 toward this project, but we need \$28,000 more. Other projects include improving the bridge to the office and finishing the bridge at the top of the cemetery to make it safe. Funds are needed for these projects, and your generosity in making contributions towards these projects would be a blessing.

Many thanks to those who contribute regularly to our maintenance budget that pays for the on-going upkeep of the buildings and grounds. We encourage all to please make monthly contributions to the maintenance fund in order to help us keep up with all the work that's needed to keep our buildings and grounds in order. If you have any questions, please contact James Morton at 808-324-1881. May God Bless You All!
